

The 100th Anniversary of the Armenian Genocide

Join the Quad Cities in Remembering a Solemn
and Tragic Crime Against Humanity

Armenian Deportees - Baghdad Railway - 1915

The Armenian Genocide began in April, 1915, with the deportation of men, women and children to the Syrian Desert leading to the brutal death of over 1.5 million Armenian Christians by the fanatical leaders of the Ottoman Empire. Historians view this event that Hitler later used as justification for his policy of ethnic cleansing leading to the Holocaust.
